

# S400

## SEMI RUGGED 14" LAPTOP

- 14 inch HD widescreen display
- Optional Intel® Core™ i7 3.0GHz vPro™ processor
- Optional 800 NITs sunlight readable multi-touch display
- MIL-STD 810G for shock, vibration & temperature
- Water-resistant mechanical keyboard
- Certified to withstand a 36 inch drop
- Customizable quick keys
- Certified for -5.8°F low temperature

### Faster Processors.

With the latest Intel Core i5 and i7 Intel Core processors, the S400 semi-rugged laptop was designed for speed and efficiency. Performing up to 53% faster than the previous generation.<sup>1</sup> Clocking in at up to 2.6 GHz and with Turbo Boost speeds up to 3.2 GHz with an Intel Core i5.

### Kryptoshell™

The S400 is built using our new KryptoShell™ body material. This new KryptoShell body allows the S400 to meet or exceed MIL-STD 810G temperature, shock, and vibration specifications including a 3 foot drop on six faces. Every port door and hinge was engineered to withstand a twist strength of up to 30 kilograms of force per centimeter.

### Low Temperature.

Being able to work in any environment is critical, even freezing cold conditions. By insulating the storage drive inside a heating blanket, we are able to boot the computer without risk to the drive or it's data in environments as cold as -5.8°F.

### Sunlight Readable Display.

The S400 semi-rugged laptop offers an advanced 800 NITs QuadraClear™ display. Our QuadraClear solution combines proprietary technologies for both screen brightness and anti-reflectivity to reduce the sunlight's reflectivity and providing an effective contrast ratio seven times better than other displays.

### Amazing Graphics.

Intel HD Graphics 4600 delivers amazing graphics performance — ideal for mapping, video applications and multiple monitors. With 88% faster graphic performance than the previous generation.<sup>2</sup> Integrated on a single chip and incorporating advanced 3D processing.

### Ultrafast 4G LTE.

With the multi-carrier 4G LTE, you can easily switch carriers without changing hardware.<sup>3</sup> The S400 also supports the next generation 802.11ac WiFi for faster throughput vs the previous generation.
